BECOME AN ALCHEMIST

TURNING GRAIN INTO GOLD

ALCHEMY (NOUN) – TAKING BASE MATERIALS AND TURNING THEM INTO SOMETHING EXTRAORDINARY.

We have set the goal for ourselves to "Explore Distillation". This is made possible by the 1000 litre hybrid pot still which we utilise to make an array of creative products from Quinoa Vodka, Chamomile Dry Gin and batches of White Whisky which will be put in barrel to begin the journey to creating world class Whisky out of Healesville in the Yarra Valley.

2018 will mark the beginning our barrel ageing program for our whisky and we want to share that process with the public by releasing a small reserve of 20L barrels that will be privately owned and aged onsite in our barrel store which is located in an 1880 wood fired bakery complex that has been restored to now become the HQ of Alchemy Distillers. We would like you to invite you to be involved having your own whisky barrel right beside ours and forever become a part of "The Alchemist Club".

THE NEED TO KNOWS

BECOME AN ALCHEMIST - PRIVATE WHISKY CASK

Whisky must be matured in oak for a minimum of two years, during this time the whisky develops its characteristic flavor and colour. We will use American oak or French oak casks coopered to the 20 L size. Other cask types may be available by special order, depending upon availability. We are using 20 L casks to ensure the whisky reaches its best after the 2 year minimum period. Typically we expect the cask to be ready in about 2 and a half to 3 years. Each cask will be filled with new make spirit at cask strength. As every cask is unique, each will mature differently. At the end of the maturation period, the cask is bottled at 40% ABV in 500 mL bottles. If you wish to bottle at a custom ABV that is specifically suited to your whisky, this can be discussed with the distiller prior to bottling. This will also impact the amount of bottled product you receive. Unfortunately, the ATO regulations do not allow you to collect your whisky in the cask. We are offering two choices, either the full or a part cask.

The full cask sale is the entire contents of the cask which will yield a guaranteed 60 x 500 mL bottles at 40% alcohol. Please be mindful that the angels will take their share. If the angels are kind, there could be a bottle or two more and the alcohol level could be slightly different.

The half cask sale is 30 x 500 mL bottles at 40% ABV. (The remaining bottles will be added to the Distillery stock, or you may purchase some more at full price).

With these two options, we encourage individuals or groups of friends to actively enjoy the Whisky experience by becoming cask owners. With both options, you will become an exclusive member of our "Alchemists Club" which will give you access to special releases, prices and exclusive offer before anyone else. This initial pre-sale is limited to 100 full casks in total. The initial offer of part casks is not capped, but is limited by our production schedule. The offer will end at 31 December 2018, unless sold out earlier. A new offer will be published for casks manufactured later in 2018. As production is limited, please check our website to confirm that the offer remains current. Please also read the Terms and Conditions attached to the order form.

DOLLARS AND CENTS

The price includes GST and Excise Tax and bottling charges. The full cask cost is **\$3,300+GST** and the half cask is **\$2,200 +GST**. A **50%** deposit we be required up-front to secure your cask and the additional **50%** to be paid prior to release. If any outstanding amounts can not be paid in full then all parties will forgo ownership of the cask and its contents will be added to the distilleries stock.

Freight is not included in this pricing but can be arranged at the buyers expense. Collection from the Healesville Distillery is offered at your convenience.

THE EXPERIENCE

During the manufacturing of your whisky you and any friends involved or fans alike will be invited down to the distillery for key milestones in the production. These will include the following:

DISTILLATION

Come down and see the 1000 litre copper pot still in action and see the whisky being distilled.

CASK FILLING

An important milestone, this marks the beginning of the ageing process, see your barrel get filled and your name stencilled onto the barrel as it is positioned in our bond room.

MATURATION

Multiple visits are encourage throughout the whiskeys maturation process so you can discuss its development with our head distillers and gain an insight into the magic that happens in the barrel.

Bookings essential.

BOTTLING/LABELLING/PACKAGING

Pay a visit and feel free to lend a hand when bottling your whiskey. This is the best day of all cause you get to take home all your spoils.

SPECIAL REQUESTS

If you wish to discuss any special requests not mentioned in the above document feel free to contact us directly.

HOW TO ORDER YOUR CASK

To secure 1 of the 100 casks available please email our head distiller at Evan@alchemyvalley.com with details on which option you would like to order (full cask or half cask) and include your contact details. Evan will then be in touch to finalise the order and organise payment through EFT or Credit Card. Barrels will be assigned to first in best dressed, however they will not be finalised until payment is made. If you miss out on the first 100 cask offering your name will be added to a waiting list and you will be given first offering if a cask becomes free or a new round of barrels is offered.
